

Blesson Samuel

Thiruvalla, India | +91 9074526248 | blesson2718@gmail.com | <https://linkedin.com/in/blesson-samuel-1aa035255> | <https://github.com/Bless2718>

PROFESSIONAL SUMMARY

Aspiring Data Scientist with expertise in Machine Learning, Data Analytics, Data Engineering, and AI application development. Experienced in building end-to-end ML pipelines, forecasting systems, REST APIs, and analytical dashboards using Python, SQL, FastAPI, PostgreSQL, TensorFlow, and Power BI. Passionate about solving real-world business problems through data-driven solutions.

EDUCATION

SRM Institute of Science and Technology
M.Sc. Applied Data Science — CGPA: 9.56/10
Karunya Institute of Science and Technology
B.Tech. Mechanical Engineering

Chennai, India
2025 – Present
Coimbatore, Tamil Nadu
Completed

EXPERIENCE

Business Analyst Intern

Jun 2026 – Jul 2026

Celonis (Remote)

- Analyzed business datasets and generated actionable insights for process improvement.
- Built predictive analytics solutions to support data-driven decision making.
- Developed dashboards and reports to communicate business performance metrics.
- Applied process mining concepts to identify operational inefficiencies.

Associate

Sep 2024 – Dec 2025

Walmart Canada

Guelph, Ontario

- Managed and validated **5,000+** inventory records weekly.
- Performed inventory and sales analysis, reducing discrepancies by **10–15%**.
- Conducted root-cause analysis to identify workflow inefficiencies.
- Improved operational accuracy through data-driven process improvements.

PROJECTS

Sentinel AI: Crime Forecasting & Intelligence Platform | *Python, FastAPI, PostgreSQL, Machine Learning, Power BI*

- Built an end-to-end crime analytics and forecasting platform using real-world crime datasets.
- Developed forecasting models to predict future crime trends and hotspots.
- Implemented anomaly detection models for unusual crime activity identification.
- Created ETL pipelines for automated data processing and transformation.
- Designed interactive dashboards for geographical and temporal crime analysis.

Orion AI – Enterprise LLM & RAG System | *FastAPI, PostgreSQL, JWT, Python, Docker, LLM, RAG, Vector DB*

- Built secure user authentication using JWT tokens and bcrypt password hashing.
- Developed REST APIs using FastAPI and PostgreSQL.
- Implemented protected endpoints and role-based authentication workflows.
- Designed scalable backend architecture following production-ready standards.

Netflix Content Analytics & Machine Learning Pipeline | *Python, Scikit-Learn, Pandas*

- Developed a complete machine learning pipeline for content analysis.
- Performed data preprocessing, feature engineering, and model evaluation.
- Generated insights on content trends and recommendation opportunities.

Zomato Restaurant Clustering & Customer Segmentation | *Python, K-Means, Visualization*

- Applied clustering algorithms to identify customer and restaurant segments.
- Performed exploratory data analysis and business insight generation.
- Created visualizations to communicate segmentation results.

TECHNICAL SKILLS

Programming Languages: Python, SQL

Machine Learning: Regression, Classification, Clustering, Forecasting, Feature Engineering, Model Evaluation

Data Engineering: FastAPI, PostgreSQL, MySQL, ETL Pipelines, REST APIs, LLM, RAG

Libraries & Frameworks: Pandas, NumPy, Scikit-Learn, TensorFlow, Matplotlib, Seaborn, Plotly, Vector DB

Visualization: Power BI, Interactive Dashboards, KPI Reporting, Data Storytelling

Tools: Git, GitHub, Docker, Linux

CERTIFICATIONS

- Professional Fellowship in Data Science & Agentic AI / Software Engineering with AI & DevOps
- Celonis Business Analyst – Rising Star
- AWS Academy Graduate – Cloud Foundations
- AWS Academy Graduate – Cloud Architecting
